IT RECALLS THE BLIZZARD.

Thermon, 4 P.M ... (0

In March, 1858, the great blizzard in America almost extinguished the city of New York. The like of it was never before seen. The snow completely stopped all local traffic. Not a horse or wheel could move. All the telegraph lines leading into the city were prostrated, and for two or three days the people of Boston and New stead of as previously notified.

York communicated with each other by way of For Freight and Passage app London by means of the Atlantic cables. Thus messages intended for persons three hundred miles distant were sent six thousand miles, crossing the coam twice. An incident which recalls this experience to

the writer's mind happened a short time ago here in England. Suppose we let the gentleman interested tell his own story. He says: "I have suffered more or less from indigestion and dyspepsia all my life. I had a bad taste in the month, pain after esting, a poor appetite, and sour stomach. My tongue was coated, and my mouth constantly filled with a watery fluid. No matter what I ato, however light, it disagreed with me and gave me rain. I had fulness of the chest, and pain at my side, with a miserable low, dull feeling. From time to time I consulted a doctor who gave me medicines, but they did very little good. The doctor said that the coating of my stomach was disordered, and the mucous membrane was inflamed. In 1877 I received a PACIFIC MAILSTEAM 3HTFCOMPANY pamphlet from New York telling of a medicine THROUGH TO NEW YORK, and OVERcalled sother Seigel's Curative Syrun, and of the extraordinary cures it had effected, so I procured a supply, and after taking the first I fel: batter, and by the time I had taken four bottles more, I was completely cured, and have herbs for many years. I was in the habit of plaints, and was frequently consulted by people in the district, so after my remarkable cure, I was so impressed with the merits of Scient's JANUARY, 1892, at OM: P.M., taking Pastengers byrup, that I procured a large supply of the and Freight for Japan, the United States, and medicine, and recommended it to all who were Europe. suffering, and people came from far and near for it. I may mention that on a Sunday my house was bessiged by miners from Coal Pit Heath, and others from a distance. On every hand I heard nothing but the louds t praise and of the cures it effected, and the fame of this medicine was apread throughout the West of England with to other advertising than one party telling on other of the benefit they had derived from this wonderful medicine, I wish every one to know of this, and if by publishing this statement it will help others who may be suffering as I was,

it will afford me pleasure." The letter from which the foregoing is an extract is signed Moses Godwin, Old Sodbury (Sodbury), Glos., and is duted April 9th, 1891. He is a farmer. The reader will notice that while the headquarters for the sale of Mother Seigel's Syrup is

universally known to be in London, by a strange ! chance Mr. Godwin's first information concern- Kansas City, Mo., Omaha, Neb. ... 285.00 ing it came from America, three thousand miles | St. Louis, Mo. away, which recalls the incident of the American St. Paul, Minn., Minneapolis, Minn. 292.90
